**WORKING REMOTELY
WITH 3CX**

Mackensie Soechting
Marketing Assistant

Working Remotely

As thousands of employees across the globe connect remotely to their place of employment every day, the recent outbreak of the Covid-19 Coronavirus has highlighted the importance of these working capabilities. Meanwhile, businesses lacking such software have been put in a sticky situation, unable to allow employees into the office and unable to allow them to work productively from home. Left scrambling to find a remote working solution, companies may find themselves forking out more cash so that they can keep afloat during this period. But we're here to tell you that that's not necessary. 3CX offers a free version perpetually.

Free communications features anytime, anywhere

- Remote workers can make use of the phone system and its features, such as status, instant chat, the live website chat, web client and smartphone apps, to keep in touch with colleagues and customers. The 3CX WebMeeting feature also allows them to meet face to face and collaborate with features such as whiteboard, PDF sharing, polling and more.

Why 3CX for remote working?

- There are many solutions on the market, many of which are either extremely costly or have significantly limited free versions. For users looking for a free product to connect with employees, students or clients, 3CX cannot be beaten. Not only can you get a full-featured web conferencing solution, but it's also much more stable.

3CX WebMeeting

Features:

- Easy to use
- Leverages WebRTC technology enabling clientless video calls
- Document Sharing
- Advanced online classroom features
- Text Chat & File Transfer
- Screen Sharing & Remote Control

Save Time & Money:

- Visualize a sales pitch with video
- Host effective webinars using the classroom features
- Assist customers with screen sharing and remote control
- Impress your audience with high quality presentation

Business as Usual During Covid-19:

- Seamless transition to a remote workforce
- Maximize productivity from anywhere
- Keep connected to customers and employees
- Integrated Video, LiveChat, Mobile Apps
